

Starting a business or want to refresh your existing logo? Check out this great package ...

Logo Package
\$1750+GST

What you get ...

- 3 logo concepts - one will be chosen and developed to the final logo
- Business card design (single or double sided).
- Letterhead design which will be supplied as a Word template.
- A disc of all the logo files and the letterhead template.
- And, of course, you get a FREE one hour consultation!

I like the idea behind my existing logo. Can you just tidy-up the logo I already have?

Most definitely! Sometimes all a logo needs is a refresh - a more effective font and the colour developed - and it will be as good as new.

How long will it take to design my logo?

Once we've had our initial consultation, you will receive logo concepts within two weeks. Then together we will develop one of the designs, which can take anywhere from a day or two to a week ... depending on how many people you want to show it off to before you make a final decision!

What if I don't like the designs you come up with?

Then we'll keep working till we get the design right! Unlike other design companies the price we quote includes unlimited changes to the logo design. It's important to get the logo right because it's the face of your business and you need to be proud of your logo.
